Gloucester City, New Jersey 08030

Dear Mr. Burrows:

This is to confirm your reception of WFBR at 1300KC on June 23rd, 1986. We operate from a four tower directional array at night on 5,000 watts. We hear from many listeners in the New Jersey, Connecticut, New York area who pick up our signal by sky wave.

Thank you very much for writing. It's good to know we are being heard by some interested people in New Jersey.

Sincerely,

Harry Shriver
